About Our Allergen Information

We understand the challenges facing the community of people who struggle with food allergies or have to manage food and beverage sensitivities in their lives. It is important that you are aware that milk, egg, peanut, tree nut, fish, shellfish, soy and wheat allergens are present in our restaurants.

We ask that when placing your order you alert our order taker and / or manager to your food allergy or sensitivity. The more information relating to your specific needs you can provide, the better we can attempt to protect you.

Do to the fact that we do not have separate equipment dedicated for the preparation of allergen-based food requests, the possibility of accidental cross contamination exists.

Decisions on the amount of precautions you should take before enjoying any of our menu items are always best made by you in consultation with your health care provider.

As the world has become more understanding of balanced eating & allergy issues, so too has the Buonavolanto family.
This is why we never prepare any menu items ahead of time!
